

Dear Residents:

RE: Do Not Feed the Wildlife

The Board and the Property Manager strongly recommend that you **do not feed the wildlife** here in Marbella Isles. Feeding squirrels, rabbits, ducks and the like encourages the wildlife to remain in one place, expecting their next meal.

Wildlife, such as ducks, that remain in a small area can cause headaches and expenses for you and your neighbors, such as the mess and damage to outdoor furniture, pools, walkways and the like.

Stay well and safe,
